 - Strong partnerships with leading providers in the IT field, such as Microsoft, Fortinet, Synology, Proofpoint, Lenovo, DELL, HPE, HP, and many more.
 - Providers of Infrastructure, IT services, and products for organizations of all sizes and sectors.
 - Hands-on experience in the latest IT technologies.
 - Providers of prompt and reliable IT support.

**COMPANY
INFORMATION**
WHERE THE PAST MEETS THE PRESENT.

IT SERVICES

SECURITY, MOBILITY & PRODUCTIVITY

IT SUPPORT & MAINTENANCE

A proactive IT approach of constant monitoring, analysis, and feedback aimed to identify IT issues before they become serious problems.

TRAINING

Tailored training courses for technologies from renowned vendors, customised to meet the unique requirements of each organization.

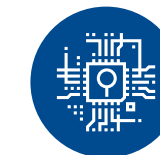

IT CONSULTING

Expert IT and business consulting services, helping organizations of all sizes optimize technology for enhanced efficiency and growth.

IT PROJECT MANAGEMENT

Involves the meticulous planning, control, execution, and maintenance of activities about IT projects.

TECHNOLOGY AUDIT

Evaluating an organization's IT infrastructure against industry best practices and developing a customised technology plan aligned with business needs.

GDPR

Offer expert GDPR compliance services, helping businesses meet regulatory requirements through certified Data Protection Officers and tailored guidance.

IT PRODUCTS

SIMPLE & COMPLEX

IT INFRASTRUCTURE

Customised IT infrastructure solutions, supporting businesses with expertise in networking and virtualization.

ENDPOINTS

Provide a range of computing devices and peripherals from top brands, ensuring competitive pricing and service through partnerships with major vendors.

SECURITY

Customised cybersecurity solutions, offering expert consultation, 24/7 monitoring, and top-tier protection against data breaches.

TELEPHONY

Cost-effective VoIP solutions, offering expert setup and maintenance to boost business communication and productivity.

PRINTING SOLUTIONS

Tailored printing solutions, focusing on cost reduction, efficiency, and environmentally responsible practices to minimize waste.

CLOUD SERVICES

A VIRTUAL, SECURE WORLD

AZURE SITE RECOVERY

Comprehensive Disaster Recovery services using Microsoft Azure Site Recovery to ensure business continuity with cost-effective. Reliable solution for IT infrastructure recovery and minimal downtime.

CLOUD BACKUP

Robust, tailored cloud backup solutions, featuring automatic scheduling, encryption, and comprehensive support to ensure data protection and rapid recovery in any crisis.

CLOUD COLLABORATION

Cloud-based collaboration, leveraging Microsoft 365 to enable seamless sharing, real-time document editing, and effective remote work, enhancing productivity and teamwork.

CLOUD STORAGE

Cloud storage using Synology Drive, providing high availability, seamless data access, full backups, and built-in disaster recovery from a Tier-3 data centre.

CLOUD TELEPHONY

Advanced cloud telephony solutions, enabling businesses to transition to virtual IP phone systems for flexible, cost-effective communication with features like remote access, advanced functionalities, and seamless integration without traditional hardware.

MICROSOFT AZURE

A range of cloud services including web hosting, virtual machines, mobile services, and big data solutions, enabling businesses to scale flexibility, reduce costs, and accelerate time to market.

CLOUD SECURITY

Comprehensive cloud security solutions, including email anti-spam, encryption, web filtering antivirus, and device control, to safeguard businesses from data breaches and cyber threats while ensuring seamless, secure access for employees.

SECURITY

YOUR BUSINESS JOURNEY ON A SAFE ROAD

MANAGED SECURITY

Includes analytics, monitoring, incident response, and security advisory, leveraging advanced technologies and expertise to safeguard businesses from evolving cyber threats while ensuring compliance and enhancing overall security.

NETWORK SECURITY

Cloud email service, with anti-spam, antivirus, Azure Information Protection, and Proofpoint, ensures secure, threat-free email management and remote access to emails and calendars.

EMAIL PROTECTION

Involves a range of protective measures, such as firewalls, intrusion detection, encryption, and employee training, to safeguard against cyber threats and ensure the security, continuity, and integrity of an organization's network systems and data.

ENDPOINT PROTECTION

Solutions like Panda AD360, FortiClient, Microsoft Defender, and CrowdStrike provide comprehensive security to protect devices, data, and networks from cyber threats while ensuring compliance and efficiency.
