THE ULTIMATE COFFEE EXPERIENCE BY CHINO

Established in Cyprus in 2001, Chino offered a new way of consuming iced coffee in the land of frappe; which swept over the island and made Chino the synonymous word for iced coffee. Since then, Chino has become a main player in the coffee category. Setting new standards of quality, the brand offers all coffee products: instant coffee, filter and of course espresso; blends and selected single origins. Our machines can make a wide range of beverages, from an espresso to a delicious cappuccino (using fresh milk) at the touch of a button. Our coffee station is accompanied with all your ancillary needs and a stand to place it in the office; providing a clean and organized environment.
